

KRAMER

Kramer BRAINware

Ethernet Master / Room Controller Software

Kramer BRAINware is an enterprise-class, revolutionary, user-friendly, software application that enables you to execute all your room control actions straight from a KT-107 family touch panel, VIA Connect PLUS or KC-BRAINware-5/25/50 without installing a physical brain between the user interface and the controlled devices. Using the power of Kramer Control cloud-based control & space management platform, Kramer BRAINware enables your touch panel to operate multiple devices over Ethernet such as scalers, video displays, audio amplifiers, Blu-ray players, sensors, screens, shades, door locks, and lights.

Designed specifically for KT-107 family touch panels, VIA Connect PLUS, and KC-BRAINware hardware platforms, Kramer BRAINware uses custom user interfaces configured in the Kramer Control Builder. Designing a system was never easier, with Kramer Control's programming free, intuitive drag & drop Builder. Install, configure and modify your control system without any prior knowledge in programming. Kramer BRAINware is available as a one-time license

FEATURES

Simplified Installation - Control your room devices without installing a physical brain

Format Conversion - Use Kramer FC family of control format converters to enable controlling almost any device from your touch panel

Fully Customizable UI - Using Kramer Control, easily personalize your control interface any way you like

Space Controller - Controls any AV device/display with its corresponding logic
